— TRUE MOUNTAIN GOLF —

The Kootenay Rockies is one of North America's most exciting and adventurous places to play golf.

The rugged, mountainous terrain provides a thrilling canvas on which to paint a course. Not surprisingly, the many esteemed architects who have been fortunate enough to work here have been given some of the most impressive parcels of land in

their careers. And there are many masterpieces to choose from – over twenty-five.

However, the excitement and adventure isn't limited to the famous courses. The many little known gems that cling to mountains and swerve through the forests near the scenic towns and villages are just as rewarding to play.

The region is known as British Columbia's Mountain Playground. Visitors come for the rich palette of recreational activities that include world-class hiking, biking, climbing, river rafting, canoeing, wildlife viewing, golfing, hot springs...

Or simply the tranquility and outstanding views.
